GODOWN RENT
₹0
No rent billed this month

Where the money comes from

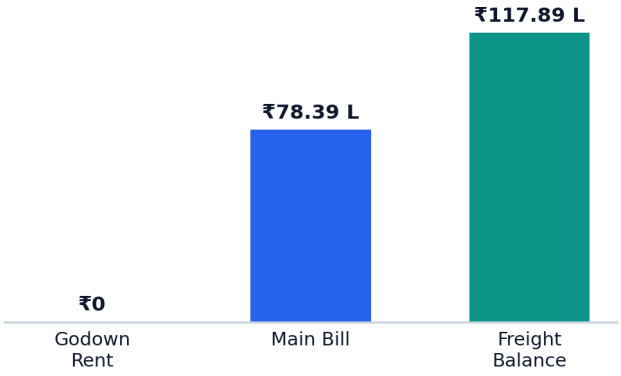

Billing mix

Share of the combined total by bill type

Amount by component

In ₹ Lakh (1 Lakh = 1,00,000)

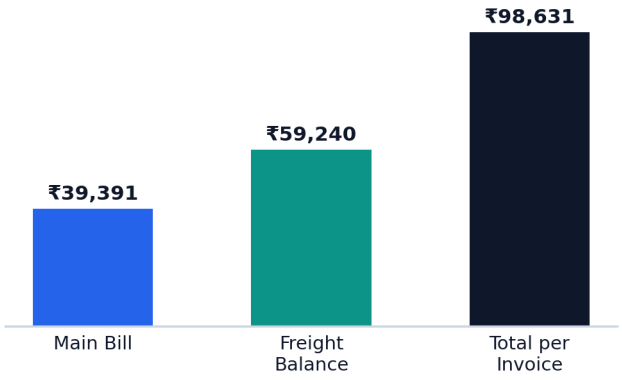

In simple words

- **Total billing this month is about ₹1.96 Cr** (₹1,96,27,550) across 199 invoices.
- **Freight Balance is the biggest part** at ₹1.18 Cr, roughly 60% of the total. In other words, out of every ₹100 billed, about ₹60 is freight.
- **Main Bill** (loading, unloading and local transportation) is ₹78.39 L, about 40% of the total. Freight is about 1.5 times larger than the main bill.
- **The tool generated 1,194 documents** (199 customers × 6 documents each, tax invoices and debit notes), available to download in PDF and Word.
- **No Godown Rent** was billed this month (₹0).

Summary table

Component	Amount	Share of total	Average per invoice
Godown Rent	₹0.00	0.0%	₹0.00
Main Bill (Loading / Unloading / Local Transportation)	₹78,38,721.25	39.9%	₹39,390.56
Freight Balance	₹1,17,88,829.11	60.1%	₹59,240.35
Combined Total	**₹1,96,27,550.36**	**100.0%**	**₹98,630.91**

What the numbers tell us

- **A typical invoice is about ₹98,631**: roughly ₹39,391 of main bill plus ₹59,240 of freight.
- **Freight drives the monthly total.** Because it is the larger share, a change in freight volume or rates will move the total more than a change in loading or unloading charges.
- **Billing is concentrated.** Only 199 of 1,254 customers (15.9%) have an invoice in this month's data, so a smaller group of active customers generates the whole amount.
- **Godown rent is nil**, so it has no effect on this month's total.

Points to check before final approval

- **Godown Rent ₹0:** please confirm that no rent is due this month, and that the figure is not missing from the input file.
- **1,055 customers have no invoice:** please confirm they were inactive this month and were not skipped because of a data or mapping issue.
- **Track freight month by month:** it is the largest component. Once a few months of reports are available, a trend chart will show whether it is rising or falling.
- **Spot-check a few documents:** open a small sample of generated invoices and debit notes to verify amounts before they are sent to customers.
